Here and Now

Lizz Wright

here and now | Lizz Wright
don't leave me behind
you got inside me
a place a space that's yours
unwind, you made
you gotta take me
away to where who cares
just let it go
who needs to know
what it is and where it goes
all i have to go on
is here and now
it's here an now
i wanna love
to the end and dream
and close the cage
that made me sing
away to where who cares
just let it go
who needs to know
what it is and where it goes
all i have
to go on
is here and now
it's here and now
here and now
here and now
