

# Feed the Machine

## Icehouse

It's living and it's breathing  
It's growing deep inside me  
Just like a disease, yeah  
Just like a disease  
Swallowed up and slowly strangled  
Every second is eternal  
And I just don't need it  
And I just don't need it  
I am sleeping with these demons  
Give me all of these good reasons  
But I don't believe, no  
Don't believe, no

I said no more  
You put me back on the line  
You say we can make a deal  
Feed the machine  
No more

The machine that wants to love you  
The machine that needs to hold you  
Holding me down, yeah  
Hold me down  
Well, it reaches out to touch you  
And it wraps its arms around you  
It's me suffocating, yeah  
It's me suffocating

I say no more  
You put me back on the line  
Say we can make a deal  
Feed the machine  
I say no more  
Feed the machine  
No more

It's living and it's breathing  
It's growing deep inside me  
Swallowed up and slowly strangled  
Every second is eternal

And I am sleeping with these demons

I am sleeping with these demons

I said no more

No, no, no, no more, yeah

Feed the machine

You say we can make a deal

You put me back on the line

I say no more

You put me back on the line

You say we can make a deal, yeah

Feed the machine

No more

Feed the machine

No more
