Freaky Me, Freaky You

Cherub

Advisory - the following lyrics contain explicit language:

Whisper in my ear, say something special
Who cares if you mean it?
Just bounce, I'll believe you
You always are sincere
I just wanna please you
Take you out to eat, sit you down and feed you
Baby, when I think of you my problems go away
I hope that when you think of me that you'll feel the same way
You're such a cutie pie that I would never think you'd play me
Like them other guys that you switch off from day to dayI, I swear I taught you everything you move
So I, I guess I really didn't have to go there
You, you have been with a few more than a few
It's all good, just make me feel good
'Cause I say fuck that, put her on the map
Ass so fat, go hit the bed sheet
So we say fuck that, put her on the map
Ass so fat, go hit the bed sheetI bet you made your mommy mad when you were in her tummy
Since you haven't met your real father I guess you can call me your daddy
Two-faced to make me happy
And if I don't approve of your attitude I'll send your ass straight to your room
Make you change my name to papi
I like it when you work it harder
Teach me things I never knew
Yeah, I like it when you work it harder
Freaky me, freaky youI, I swear I taught you everything you move
So I, I guess I really didn't have to go there
You, you have been with a few more than a few
It's all good, just make me feel good
'Cause I say fuck that, put her on the map
Ass so fat, go hit the bed sheet
Rocking fast like she's rocking bad
I pump her titties and her breastJust another love tko
