

Make a Scene

Novi

I saw it going down, oh yeah
I felt you're beaming me right in
You know I hear you through the ether
I feel your whisper in the wind

Swinging those knives like a gypsy
I catch one to the throat
It hurts and it burns, but I don't let it show
This disaster needs a master plan, and I got one coming now, eyyyyyy

I'll make a scene like Miss Monroe
Steam my panties from below
I'll return just like the King,
swinging 'till the bell goes "ding!"

My mamma said that I should knock you out
I'm quakin' get ready (oh yay),
quakin' get ready oh yeah!

Throwback to the days before that
Stone cold, walking out the door
And my heart's falling on the floor
We were in love

There was a moment there where I gave up
but my judgement's comin' now (ehh, ohh, ayy!)
I was layin' in the coldest place,
Singing out to the lord, let my heart erase this
I'm waking up the dead, you know I don't fuck around!

I'll make a scene like Miss Monroe
Steam my panties from below
Pout my lips and curl my hair,
Make you wish you never...

My mamma said that I should knock you out
I'm quakin' get ready (oh yay),
quakin' get ready oh yeah!

I was layin' in the coldest place,

with a hole in my heart but my soul escaped
Contemplating, prayin' at the lord
But he's busy walkin' out the door

I was layin' in the coldest place,
with a hole in my heart but my soul escaped,
Contemplating, prayin' at the lord
But he's busy walking out the door

I'll make a scene like Miss Monroe
Steam my panties from below
I'll return just like the King,
swinging 'till the bell goes "ding!"

My mamma said that I should knock you out
I'm quakin' get ready (oh yay),
quakin' get ready oh yeah!

I'll make a scene like Miss Monroe
Steam my panties from below
Pout my lips and curl my hair,
Make you wish you never...

My mamma said that I should knock you out
I'm quakin' get ready (oh yay),
quakin' get ready oh yeah!
