

# Golden Days

Chris Spheeris & Paul Voudouris

These are the golden days  
In this golden age that we're livin'  
I show you a thousand ways  
I show you how we take what we're given  
Alright  
Yeah  
You can say what you want  
We don't need your permission  
Cause you're so busy talkin'  
That you don't even listen  
You can do what you want  
You know that we don't mind  
You got the years  
But we got the time  
These are the golden days  
In this golden age that we're livin'  
I show you a thousand ways  
I show you how we take what we're given  
You can say what you want  
We don't need your permission  
With all the things that you hide  
  
How do we look suspicious  
Better look straight ahead  
Don't look over your shoulder  
Because you'll wake up to find  
That we've taken over  
These are the golden days  
In this golden age that we're livin'  
I show you a thousand ways  
I show you how we take what we're given  
(We have the strength to survive)  
These are the golden days  
In this golden age that we're livin'  
I show you a thousand ways  
I show you how we take what we're given  
These are the golden days  
In this golden age that we're livin'  
I show you a thousand ways

I show you how we take what we're given  
Don't take what you're given  
Don't take what you're given  
We won't take what we're given
