Transcending

CÅ•pia

You are my God, you are my dog
You kept me close, love never lost
I called you hippie, you said, "Fuck off"
Said your brother's a real punk rockerSomething gonna happen
Something very soon
Transcending flesh could be a breeze
Sending me, Lord, over the moonFriends near death you gave respect
Sympathetic intellect
Choices are for one and all
All we are is leaves that fallThat's allAlways be loving you
Now I'm away from you
Always be loving youRound and round inside your head
Smartest fucker, I ever met
Vicious fish bit at your toes
Made you lie and numb your soulSomething gonna happen
Something very soon
Transcending flesh could be a breeze
Sending me, Lord, over the moonMule donkey ass you bore a load
Of all creations tortured souls
Choices are for one and all
All we are is leaves that fallLike no other, I love you your my brother
Like no other, I love you your my brother
Like no other, I love you your my brother
Like no other, I love you your my brother
Like no other, I love you your my brother
Like no other, I love you your my brotherWater flowing and I will drink it
I will drink for you
A part of me left that only you knew
Will never be understood, will never be understoodHey, gone to stay
Entire lifetime flash before me in a loving stream
Hey mother May, I have lost a child
But she gave birth to a loving streamOoh, never know
When the Gods will come and take you to a loving stream
Ooh, heart of gold
The most special things you gave me were from your loving streamIn a loving streamFuck the magazines
Fuck the green machine
See the human being
In a loving streamFuck the legal greed
Fuck the nothing scene

See the family
In the loving stream
