

I Really Don't Care

[Bilal](#)

I really don't care, I really don't care
Really don't care, I really don't care I know I'm not a typical guy, and your friends say I don't have a chance
But I wonder if you pay them no mind, 'cause it's costing us time
Can you give me a chance to show you why?
We should be forever again, forever again Ooh lets drive around town, don't really have a place to go
We could lay down by the sea and listen to the oceans [?] I really don't care, really really don't care
I really really don't care, I really don't care
