You Make it Worse

[Raleigh Ritchie](...)

I can read you like a book
I don't need to say it twice
I never cared for being right
Baits is on the hook,
I don't even wanna bite
I don't want to give one kiss
'Cause I can't keep you back , can't bring you in
Can't fit to black, can't let you winCHORUS:
When nothing works for me, when nothing works for me
You make it hurt, you make it worth for me
I bet myself out
You make it worse, you make it worse for meTo you it's all a game, but all I do is analyze
Words to make me rot inside
To you it's all the same, I'm just a human sacrifice
You use me like a parasite
Can't keep you back, can't bring you in
Can't fit to black, can't let you winCHORUS:
When nothing works for me, when nothing works for me
You make it hurt, you make it worth for me
I bet myself out
You make it worse, you make it worse for me
you make it worse for me
you make it worse for meYou were supposed to make it easy
We were supposed to be a team
We were supposed to live some kind of dream
But in this scheme, you only want to escape
Are you some kind of creep?
Words are cheap!CHORUS:
When nothing works for me, when nothing works for me
You make it hurt, you make it worth for me
I bet myself out
You make it worse, you make it worse for me
