

High On Life

Christopher

I saw the usual
Day through the night
Then the unnatural
Fell from the sky and did the spectacular
Opened my heart
You're the miracle
Sent from above
And baby our love's like a tower
We build way beyond the clouds
And though we started from the ground
We are in the sky
And we're taking off tonight
And we got it all tonight
And even when the sky is falling down
We be high on life
We be high on life
We be high on life
We be high on life
We be high on life
And we're taking off tonight
And we got it all tonight
And even when the sky is falling down
We be high on life
We be high on life
I'm like an animal
Feeling alive
And no drugs comparable
This natural high
We are unbreakable
And with the speed of light
The stars will be watching us
Flying tonight
All right baby our love's like a tower
We build a way beyond the clouds
And though we started from the ground
We're in the sky
And we are taking off tonight
And we got it all tonight
And even the sky is falling down
We be high on life
We be high on life
And we're taking off tonight
And we got it all tonight
And even when the sky is falling down
We be high on life
We be high on life
We be high on life
We be high on life
And we're taking off tonight
And we're got it all tonight
Even when the sky is falling down
We be high on life

We be high on life
