You Can't Have a Good Time Without Me

Pam Tillis

You say you're not missin' me darlin'
I know you are and always will be
And I saw you at the club actin' so in love
Ah, but that don't mean nothing to me'Cause as you danced by, that look in your eye
Showed me where your heart is secretly
Guess I'll be seeing you in the middle of the blues
You can't have a good time without meYou can't have a good time without me
You're gonna see me in your memory
You're gonna hear me in that melody
You can't have a good time without me, oh noI remember those sweet nights with you dear
When I had you all to myself
Now those times are gone, but love still lingers on
You won't find with anyone elseAh, well you may wear a smile, fool yourself awhile
But your heart and your mind will disagree
So I'll be seeing you in the middle of the blues
You can't have a good time without meAnd you can't have a good time without me
You're gonna see me in your memory
You're gonna hear me in that melody
You can't have a good time without meYou can't have a good time without me
You're gonna see me in your memory
You're gonna hear me in that melody
You can't have a good time without meYou can't have a good time without me
You're gonna see me in your memory
You're gonna hear me in that melody
You can't have a good time without meYou can't have a good time
No you just can't have no fun
You can't have a good time without me
