Aviation

Lana Del Rey

Do you think I'm crazy for considering aviation?
I'm a fan of flying, wanna do it for the nation.
'Cause I have nothing else to do this summer
but committed to you.
Have a big degree in philosophy
but I don't know what I wanna beSo I'm going into aviation, yeah mom.
I'm going into aviation, yeah dad.
Going into aviation. I'm going into aviation.Do you think I'm crazy 'cause I'm up and leaving, baby?
Well I ain't got nobody and I ain't got money, baby.
I feel high as I might tonight
so lean back, and enjoy the ride.
And the weather is clear and nobody is near.
The future is not yet here.So I'm going into aviation, yeah mom.
I'm going into aviation, yeah dad.
Going into aviation. I'm going into aviation.Do you think I'm crazy cause' I'm going to Pensacola?
Where nobody knows me
Where someone could just start over.
I'll be all right in a month or two
'cause it's warm there in the winter too.
Think New York is great, I really like the state
but it's time to be on my way.So I'm going into aviation, yeah mom.
I'm going into aviation, yeah dad.
Going into aviation. I'm going into aviation.I'm going to take a vacation yeah ma'am
for fighter jets all over the nation,
for fighter jets all over the nation.
