

Girl I Know

Avenged Sevenfold

Let me tell you 'bout a girl I know
That comes alive when you take off her clothes
There's no telling just where she's been
Asked around but no one seems to know
Late at night when you're looking to sin
Call her up and she'll lay down the law
You can't trust her, 'cause she'll lie to your face
But that's not why you gave her a call
Awaits deep inside, the lust and burning desire
We've all been more than
eager to sin
And it feels alright, 'til we pay the price
Now you choose, either naughty or nice
'Cause shes here for you, it's all yours tonight
You won't believe the stories I've been told
About the girl I know
Another thing about this girl I know
She's more comfortable down on her knees
Went to school, got a job, and then she shot into hell
All 'cause shes born to please
Don't get her mixed up 'cause she knows what she likes
Can't tell the difference between right and wrong
She knows you're watching every one of her moves
Just more reason to string you along
Awaits deep inside, the lust and burning desire
We've all been more than
eager to sin
And it feels alright, 'til we pay the price
Now you choose, either naughty or nice
'Cause shes here for you, it's all yours tonight
You won't believe the stories I've been told
About the girl I know
The first time's hard enough, but you made it through
The second time I see the changes in you
She's got you somehow, you're needing her now
We've all been more than eager to sin
And it feels alright, 'til we pay the price
Now you choose, either naughty or nice
'Cause shes here for you, it's all yours tonight
You won't believe the stories I've been told
About the girl I know
