

Closer To Paradise

The Barra MacNeils

Two rights, with no one wrong
However strange it be
I'll not argue the difference,
When fools like us agree.
We share the same opinion,
It's time we realize
Isn't it love that brings us all
Closer to paradise?

All's fair, in love in war,
Where nothing fails because
It's easy to be comforting,
Considering the odds
We've found the right direction
And rose above our lives
Isn't it truth that brings us all
Closer to Paradise?
Is it truth that brings us all
Closer to Paradise?

Paradise is where we meet
Where truth is never ending
No fighting and no mind control
Where rules were made for bending
Paradise, with broken hearts
And troubled souls are mending
Isn't it love that brings us all
Closer to Paradise?
Is it love that brings us all
Closer to Paradise?
Closer to Paradise....
Closer to Paradise....
