

After the Prince and the Showgirl

Shivaree

You've gotta be hard
If you gonna get her
Don't leave her scarred
All dead, all better You've gotta remember
To do it all right
Turn the lights off
Lock it up tight Don't you walk on the grass
And don't leave any clues
Better wash off your glass
And wipe the mud off your shoes Too much information
Just gets 'em going
Down at the station
Don't want 'em knowing Don't stop to wonder for too long
Just make sure there's something
That she likes on the radio When duty calls
Miss Niagara falls
But when they ask me
I'll just say that I didn't know When will you call?
(Well, after it's over)
Are you sad at all?
(I don't even know her) Don't let it hurt
(I'll be fast)
I feel so bad
(It won't last) When you get back
(I'll be clean)
And please, don't say
Anything mean But you've gotta dress nice
Try not to upset her
Just a little advice
If you're gonna get her Don't stop to wonder for too long
Just make sure there's something
That she likes on the radio Drive by the bank
And check on the tank
And when they ask me
I'll just say, "I didn't know" But you've gotta dress nice
'Cos that makes it better
Just a little advice
If you're gonna get her
