

Angry Sea

Mother Mother

I don't want the same disease
That everybody's got these days
I don't want to live that way
I do not want to live in pain So take your parasites away
And keep them somewhere far from me
'Cause I don't want the same disease
That everybody's got these days I don't want to live that way
I do not want to live in pain
Another fool in history
I'll tell you what it means to me It's nothing but lobotomy
It's nothing but an angry sea
Striking a wave with me It's coming like a big freight train
It's spreading like a wild flame
You know it's coming all our ways
So dig your dirt and make your grave Mama save me
Come on and vaccinate me
'Cause I don't want the same disease
That everybody's got these days I don't want to live that way
I do not want to live in pain
Another fool in history
I'll tell you what it means to me It's nothing but lobotomy
It's nothing but an angry sea
Striking a wave with me
