

Promesses (feat. Kaleem Taylor) [Radio Edit]

Tchami

If the rain was coming
Will you break my heart?
Break this promise?
If the rain was coming
Will you break my heart?
Break this promise
If the rain was coming
Will you break my heart?
Break this promise?
If the rain was coming
Will you break my heart?
If emptiness is in your promises
Then there's no need to even promise me
If emptiness is in your promises
Then there's no need to even promise me
Ooh yeah, I don't need you too now
What's the deal, aw yeah, won't you be, promise me
Ooh yeah, I don't need you too now
What's the deal, aw yeah, won't you be, promise me
If the rain was coming
Will you break my heart?
Break this promise?
If the rain was coming
Will you break my heart?
If emptiness is in your promises
Then there's no need to even promise me
If emptiness is in your promises
Then there's no need to even promise me
If emptiness is in your promises
Then there's no need to even promise me
If emptiness is in your promises
Then there's no need to even promise me
