

Pocket Revolution

dEUS

There's no rules here
I been making stuff up from the beginning
How I feel today
For all my sinning I'm just a lonely boy
Would you be my enemy
I'm finding little joy in repetition
This routine they call destiny When you put me down
Revenge is the first thing on my mind
But that's just stupid, man
I need a better plan
Delicate and refined
Between the thunder and lightning
There is a gap I should have listened to the warning
I would have seen the trap Can you feel it
When all is struck, right
In front of you
Can you heal it
It's gonna take a revolution now
To get through to you You don't know what you're destroying I got all qualities of a stalker
I'm right behind you
Don't dare me now
I'm a faster walker
I'm right on top of you
I'm just a lonely boy
Would you keep me company
You keep me on my toes
You get me going
When I'm weak Can you feel it
When all is struck
In front of you
Can you heal it
It's gonna take a revolution now
To get through to you
Can you see it
The sky has lit up
Exposing you
Can you heal it
Are you gonna be found out
Or is it something you You don't know what you're destroying Watch me wallowing in sweet denial

Teach me to win and lose
I been waiting it's a slow arrival
Wash it over me
And clean my soul
I give control
