

# Lie

## Tracy Lawrence

I heard you saw her last night at that dive down in Jamestown  
I haven't seen her since the 4th of July  
Did you get a chance to talk, did she mention me at all

Was she there alone or with some other guy  
Well, I'm dying to know but I'm scared of the truth  
So before you say a word  
Consider what this heart's been through, and  
Lie - Don't tell me that she looked  
amazing  
Just Lie - If she's with someone else I just can't take it

Tell me she looked sad and lonely  
Tell me she's been missing me like crazy  
Yeah, just look me in the eye and  
lie  
Was she over by the jukebox  
playing songs we used to dance to  
Staring at the door sipping Makers on the rocks  
Did she ask you where I've been  
Was she hoping I'd walk in  
Just take her by the hand and pick up right where we  
left off  
Well, I know she's moving on and it's killing me to see

And the words you want to say  
are strong enough to be the death of me, so  
Repeat Chorus: Cause I can't throw  
away the dreams we've shared

I've tried reaching out but she doesn't care  
It's pretty clear, but I ain't ready to let go, so  
Lie - Don't tell me that she  
looked amazing  
Just Lie - If she's with someone else  
then Lie - Don't tell me that she looked amazing  
Just Lie - If she's with someone else I just can't take it

Tell me she looked sad and lonely  
Tell me she's been missing me like crazy  
Yeah, just look me in the eye and lie
