Lying To Yourself

Example

I thought it was curtains for us, all seemed so certain,
You can say that the words in my version are things are the reason you're hurting,
I thought it was curtains for us, all seemed so certain,
And I know that the reason I lied was a crime and it's kind of disturbing.
And I'm happy to admit that I lie, and I'll admit that I ruined your life,
You could never admit if you tried, and you're so wrong, and you're so wrong,
And I'm happy to admit that I lie, and I'll admit that I ruined your life,
You could never admit if you tried, and you're so wrong.
Until you stop lying to yourself, I'll never stop lying to you,
And until I stop crying to myself, I'll never cry in front of you,
I'll fight the tallest giants, and break the rules of science,
But I'll never stop lying to you, and I've never said a word so true.
It used to be case a trying to impress her,
I pestered her daily this lady that rest in my heart,
And I highly respected her,
Take a lying detector but I'll probably pass the test,
And I started this, not defending this,
But you're asking me questions, creating the tension

The tension, I miss all the tenderness,
It's the truth, but the truth is an enderness.
And I'm happy to admit that I lie, and I'll admit that I ruined your life,
You could never admit if you tried, and you're so wrong, and you're so wrong,
And I'm happy to admit that I lie, and I'll admit that I ruined your life,
You could never admit if you tried, and you're so wrong.
Until you stop lying to yourself, I'll never stop lying to you,
And until I stop crying to myself, I'll never cry in front of you,
I'll fight the tallest giants, and break the rules of science,
But I'll never stop lying to you, and I've never said a word so true.
Our love was built on grass from day,
We both were too afraid to say,
Our love was love was built on grass from day,
Too afraid to say...
Until you stop lying to yourself, I'll never stop lying to you,
And until I stop crying to myself, I'll never cry in front of you,
I'll fight the tallest giants, and break the rules of science,
But I'll never stop lying to you, and I've never said a word so true.
