

# Star

## Extreme

Star- you're a star  
Yeah be careful what you're wishing for  
All your dreams coming true  
Star yes you are  
You're now bigger than Venus and Mars  
You can run but you can't hide So you're gonna make it  
Chance you're gonna take it  
Tinseltown is calling your name  
Penny in your pocket  
Walking like a prophet  
Fortune teller claiming your fame Arriving in style  
On the red carpet mile  
To the left to the right  
Step aside  
As you wave to the crowd  
A voice cries out loud  
Look at you  
You're the new overnight sensation Star- you're a star  
Yeah be careful what you're wishing for  
All your dreams coming true  
Star yes you are  
You're now bigger than Venus and Mars  
You can run but you can't hide Love and hate related  
Privacy invaded  
A paparazzi public domain  
Dirty little secret  
Guess she couldn't keep it  
At least you made it on the front page A tabloid be told  
All that glitters ain't gold  
Not a muse, Drug abuse suicide  
As you're left all alone  
After selling your soul  
In the aisle, smile, ready for your close up Star - you're a star  
Yeah be careful what you're wishing for  
All your dreams coming true  
Star yes you are  
You're now bigger than Venus and Mars  
You can run but you can't hide  
Stars in your eyes

Got your piece of the pie in the sky  
Don't look down as you hang onStar - you're a star  
Yeah be careful what you're wishing for  
All your dreams coming true  
Star yes you are  
You're now bigger than Venus and Mars  
You can run but you can't hideStars in your eyes  
Got your piece of the pie in the sky  
Don't look down as you're hanging onHanging on for your life  
For you're better off dead then alive  
Then they love you forever
