

Big Eyed Beans From Venus

Captain Beefheart

Distant cousins, there's a limited supply.
And we're down to the dozens, and this is why,
 Big Eyed Beans from Venus!
 Oh my, oh my. Boys and girls,
 Earth people around the circle,
 Mixtures of man alive.
 Big eyed beans from Venus,
 Don't let anything get in between us. Beam in on me baby,
 And we'll beam together
 I know we always been together,
 But there's more. Mister Zoot Horn Rollo, hit that long lunar note,
 And let it float. Men let your wallets flop out,
 And women open your purses,
 Cause a man or a woman without a big eyed bean from Venus
 Is suffering with theworstest of curses
Yeah, you're suffering, with theworstest of curses. Put 'em out in the sun, and when the night come
 You don't have to go out and get 'em
 They'll glow with you
 They'll go with you
 They'll show with you
 Ain't no losers
 Cause they're on the right track
 Cause they're on the right track
 You can be on the right track, woman,
Of course, of courseAin't no SNAFU, no fol-de-rolCheck these out, Big eyed beans from Venus
 Oh, let a few out, let 'em pass in between usDistant cousins, there's a limited supply.
 And we're down to the dozens, and this is whyDon't let anything get in between us!
 Big eyed beans from Venus
 Big eyed beans from Venus.
