

Surrender

Cash Cash

I was running on an empty heart
Not a trace of gasoline
Trying to dim every single spark
That could hurt, that could burn all of me
Like a soldier on a battle ground
Lying wounded on the field
I was fighting along with the broken sword
Now I'm caught in a war with no shield
If you hold me now
And leave me never
Say you'll stay with me forever
Then I surrender, surrender
If you hold me now
And leave me never
Say you'll stay with me forever
Then I surrender, surrender(Surrender, surrender)I pushed and pulled all the ones that try
Then I watched them fade away
As I look around a vacant room
I see nobody left here to play
'Cause I made myself a prisoner
Shackled up by all my fears
But I feel you breaking away, out the walls
Make them fall, make them all disappear
If you hold me now
And leave me never
Say you'll stay, with me forever
Then I surrender, surrender
If you hold me now
And leave me never
Say you'll stay, with me forever
Then I surrender, surrender(Surrender, surrender)Hold me now
And leave me never
Say you'll stay, with me forever
Then I surrender, surrenderThen I surrender, surrender
