

# Chokehold (Cocked 'n' Loaded)

## Children of Bodom

Mine field is called the place I'm living in,  
Carefully watching each and every step I take.  
Bright white straight jacket chokes me off  
My eyes are tired...I... feel the cold steel on my forehead.  
Like... binding pleasure of being dead.Downward future! I descend...  
Counterblast!  
And chokehold til' the end...I'm flushed like the booze I hammer down,  
like a piece of trash to be kicked all around.  
When would be a time for a better day?  
My cocked 'n' loaded soulmate leads the way
