

# Steady Diamonds

## Spark Gap

We can see your heart pumping heavy stones,  
Inside transparent veins.  
Old stories crashing through young arteries.  
Disease, disease, disease, Your disease is beautiful.  
They came to see, they came without even a doubt  
It's clear and obvious, something we all know...Damn you're beautiful, god so beautiful.Ooh boy, did you know  
it's you they talk about?  
Oh, I know instead of blood, run steady jewels.  
Ooh boy, we've all been waiting a miracle.  
Oh, I know instead of blood, run steady jewels.There is something deep inside your bones,  
A hidden wealth that even evil knows  
Worms of innocence are digging their holes,  
like blind homeseeking moles Your disease is beautiful.  
They came to see, they came without even a doubt  
It's clear and obvious,  
Something we all know...Damn you're beautiful, god so beautiful.ChorusIt's clear and obvious, something we  
all know.  
We can feel your heart pumping heavy stones.We can feel your heart pumping heavy stones.Ooh did you know  
it's you they talk about?  
Oh, I know instead of blood, run steady jewels.  
Ooh boy we've been waiting a miracle.  
Oh, I know instead of blood, run steady jewels.
