

# Pox

## Smashing Pumpkins

Another dumb kid, shut up  
Another restless bitch, still fuck  
Another magic trick, not a sound  
Forget to forget you're so far  
You're getting close to my heart, a pox, a pox  
We're giving back the dream  
We're giving back the dream  
We're giving back the dream  
We're giving back the dream  
Another plastic squeeze, sunkissed  
Another favorite squeeze, I lost again  
We do as we please, but what with?  
I choose to forget just how close we really are  
Next to me, a pox, a pox  
We're giving back the dream  
We're giving back the dream  
We're giving back the dream  
We're giving back the dream  
I know I'm right, I can't be wrong  
Put up your dukes, you're not so strong  
Every angel sleeps somewhere  
Every angel dreams of sometime  
Every angel walks with me now  
Every angel kiss that's left upon my bruised cheek  
A gazillion strong bleed  
We're giving back the dream  
We're giving back the dream  
We're giving back the dream  
We're giving back the dream  
Another dumb kid, he shot him  
Another dumb kid, he shot him  
Another dumb kid, he shot him  
Even angels sleep sometime
