

Bug Out

The Pop Ups

There's a grasshopper that landed on my toe
I have to tell him when it's time to go
I march him away there's a dragonfly that landed on my hip
to him i'm as big as a cargo ship so I
shake him away a moth flew up and landed on my side
he didn't eat my sweater but he tried so I
I twist him away...(CHORUS)
i move from head to toe
so there's nowhere for bugs to go
dancing is my guarantee
that no bugs can land on me (away....)
let's move from head to toe
so there's nowhere for bugs to go
dancing is my guarantee
that no bugs will land on me...there's a firefly that landed on my hand
blinking in a code that i don't understand
wave it away
there's a butterfly just landed on my shoulder
i tried but she just wouldn't let me hold her
I shrug her away...
A ladybug just landed on my ear
told me stories that I couldn't really hear
so i brush it away (nod)CHORUS I guess that's just what I should expect
if I sit in a field then bugs is what I get
brush them away...bugs and worries can get in the way
but sometimes dancing makes it all ok
I brush it away, I brush it away...i move from head to toe
so there's nowhere for bugs to go
dancing is my guarantee
that no bugs can land on me
i move from head to toe
so there's nowhere for bugs to go
but if they land that's fine with me
I'll learn to dance more gracefully! IF THEY LAND THAT'S FINE WITH ME
I'LL LEARN TO DANCE MORE GRACEFULLY!
