Goin So Good

Zz Top

Yeah
Just when I had the money to spend
And I was always thinkin' it would never end
Then the time came to the end of the game
Don't you know
And just when the sky got shiny and bright
There never seemed to be an end of the light
But then the clouds came, it started to rain
Don't you know
Just when it was goin'
Just when it was goin' so good
Just when it
Just when it was goin' so good
But just when the highway straightened out for a mile
And I was thinkin' I'd just cruise for a while
A fork in the road bought a new episode
Don't you know
Just when it
Just when it was goin' so good
Just when it was goin'
Just when it was goin' so good
Baby, don't you worry
I said, baby don't you cry
We're gonna get it together
And I know you're askin' why
Yeah, just when it
Just when it was goin' so good
Just when it was goin'
Just when it was goin' so good, yeah
Yeah
Just when baby
