

# Shanghai Lil

[Guy Lombardo](#)

I've covered every little highway  
And I've been climbing every hill  
I've been looking high and I've been looking low  
Looking for my Shanghai Lil The stars that hang high over Shanghai  
Bring back the memory of a thrill  
I've been looking high and I've been looking low  
Looking for my Shanghai Lil I learned to love her  
The little devil was just a butterfly  
But you'd discover something on the level  
Shining in her eye Oh, I've been trying to forget her  
But what's the use, I never will  
I'll be looking high and I'll be looking low  
Till I find my Shanghai Lil
