

# New Girl

## The Long Winters

American Schools called you Starlight

    In fourteen point type

    Twenettww x 10 and then

    Your most brutful smile

    You were looted

    You opened wide

    Gave props to the knives

    Props to the cheating wives

    Be kind to the new girl

You erased so many mistakes

    By sitting up and smiling

    Your solo show

    I hope it never closes

    It was the ride of my life

Twice you burned you lifes work

    Once to start a new life

    And once just to start a fire

    Be kind to the new girl

    Uh, no, you are

    Be kind to the new girl
