

# Stop Whining

Rufio

So close to the one that  
you care for cause you dont care its not worth it  
cant think straight  
so take your pill  
and stop whining so close your eyes  
and think of your life  
behind the wall  
of innocence, must  
thank your family and think of your friends  
think about them,  
these thoughts will be gone when youre dead  
dead always feel  
discomfort  
always feel i'm the  
only one who cares about it cant find one  
good reason  
to stay here  
so stop whining so close your eyes  
and think of your life  
behind the walls  
of innocence, must thank your family  
and think of your friends  
think about them,  
these thoughts will be gone if you really did  
want to end your life  
you'd be gone by now  
its just a drop out  
be careful though  
you dont know what to do you improvise it  
but you cant see straight  
you dont know what to think  
dont blame your shit on me  
its getting older as days  
just keep on passing by  
please by my guide so close your eyes  
and think of your life  
behind the walls  
of innocence, must thank your family  
and think of your friends

think about them,  
these thoughts will be gone  
when youre dead  
dead
