Just hopped off that facetime with her
Fine lil mama the way that we vibe
On the same fvckin page and the way we collide
Oh it's like
It's like
We the very same person shaped into one
Two human beings built into one mind
truth is ?

(Pitch down)
Never felt anyone
Never felt so alone

(Hook)
That would touch mine
Touch mine
That would touch my mind
Grind like it ain't no 3x
Tomorrow

Though she
caress the roughest cuts of my mind
Aint No coincidences in life
I just let it flow, just let it that align
shawty
You fine and you're armed like no other
In the dirt yeah i digged out a diamond
Bad bish on your spare time
Mad sipiritual at the same time
You giving the love and light right
In check with yourself at the same time
Exquisite to eyes like the limelight
Offset my levels since my heart died
Only one who has touched my mind
Who would have touched mine

(Hook)

We meant we meant we meant
To be
All is right
All is kind
All feels as it has
To be
what we meant to be

Deterioriate every single line
To a simple line
The purpose is divine
And the connection is out of this world
Connection got me outta my mind
Got em butterflies everytime like it's the first time
You set me outta my mind
Shawty she make me forget everything everytime like it's the first time
And on top of all that
Shawty you so fine
Shawty you so fine

(Pitch down)
Never felt anyone
Never felt so alone

(Hook)
That would touch mine
Touch mine
That would touch my mind
Grind like it ain't no
Tomorrow

(Hook)
We meant we meant we meant
To be
All is right
All is kind
All feels as it has
To be
what we meant to be
