It's Only The End Of The World

Black Box Recorder

It's only the end of the world
Not a death in the family
We've seen all the best sights
Been on all the best ridesAt the amusement park on Saturday
We got tongue tied after all the best fights
Stuff that's too boring to trash
It's classless and crass
It's only the end of the worldSince the circus left town
We've been seen kicking round
And now every caress is some cul-de-sac
We've already been downWe're just moving our lips
Making the sound
The ground is still spinning
But it's slowing down
It's only the end of the worldWhere is the love?Satellites break up in the atmosphere
Our ashes are scattered in space
All of the answers fall into place
It's only the end of the worldSince the circus left town
The world just stopped spinning round
We've seen all the prize fires
The Sunday gun fightersWith their heads hanging down
We just go were the money goes
Your hands turn to dust, the magic is lost
It's only the end of the worldWhere is the love?It's only the end of the world
It's only the end of the world
The end of the world
The end of the world
The end of the world
The end of the world
