

Go Jimmy Jimmy

Aaron Carter

It's the kids baby, It's the kids baby
It's the kids c'mon
It's the kids baby, It's the kids baby
And you know I'm coming through
It's the kids baby, It's the kids baby
its the kids c'mon
It's the kids baby, Leave it up
Leave it up to me Leave it up to the kids grown-ups own up
Even when they mess up acting like
It's all sewn up, mom and dad think
We need to have a talk
Let the kids rule the world
Boys and girls, you can't blame us for
Nada, you taught us to follow orders
'Cause I'm the baby (done da da)
Monkey see (ah ah) monkey do no more
The puck stops here what's the score
We might start a play fight just to
Imitate you, don't you feel silly
Now shame on you, don't start to cry
No I don't blame you, after all you're
Just a grown up, watch gonna do? Yo, It's the kids (keep it locked up)
Got to heat it up, heat it up
What's the deal (what do you want,
Got to give it up, give it up)
Make way (put it on
Gonna hook it up, hook it up)
How's that (leave it up
Leave it up to me)
Yo, It's the kids (I can do it if I
Speed it up, speed it up)
What, what (set it off
Gonna live it up, live it up)
Make way (put it on
Gonna hook it up, hook it up)
And how's that (leave it up
Leave it up to me) When the gown-ups go AWOL
Nothin's gonna fall, here com the
Young ones, the baby crime busters

Big people listen up, relax now
We're equal and if the money's right
Then we might make a sequel
Do I hear a please
I love it when you beg me
I need a bribe now just to
Move me light speed
And I might fit you in if you make way
So let me talk to my people
We could save the day Yo, It's the kids (keep it locked up)
Got to heat it up, heat it up
What's the deal (what you want,
Got to give it up, give it up)
Make way (put it on
Gonna hook it up, hook it up)
How's that (leave it up
Leave it up to me)
Yo, It's the kids (I can do it if I
Speed it up, speed it up)'
What, what (set it off
Gonna live it up, live it up)
Make way (put it on
Gonna hook it up, hook it up)
And how's that (leave it up
Leave it up to me)Hoo hoo ow ow, hoo ow ow, hoo hoo ow ow, hoo
(Now what you gonna do)
Mom and day they'll be getting
On my nerves, workin' 'em
Workin' 'em, is that what I deserve
But after many days, hey
I want them back tell me who's gonna
Bake my cake and all that
Who's gonna suffer from
My practical jokes and listen when
I moan, hey, it's gotta be my folks
And who's gonna get me up
Ready for the flight and who's gonna
Tell me everything's all right
But wait a minute, that sounded so soft
That won't impress a hot chick
Like Lara Croft, don't play me out
'Cause I'll switch you off, you'll be
Too old for too long, singing
The same song, if you're old enough
To vote, then it's time to sit down

It's all about the little homies
Taking the crown, so if you're
Too young to vote, here's your chance
To have a say, c'mon everybody
Help me save the day Yo, It's the kids (keep it locked up)
Got to heat it up, heat it up
What's the deal (what you want,
Got to give it up, give it up)
Make way (put it on
Gonna hook it up, hook it up)
How's that (leave it up
Leave it up to me)
Yo, It's the kids (I can do it if I
Speed it up, speed it up)
What, what (set it off
Gonna live it up, live it up)
Make way (put it on
Gonna hook it up, hook it up)
And how's that (leave it up
Leave it up to me) Yo, It's the kids (keep it locked up)
got to heat it up, heat it up
What's the deal (what you want,
Got to give it up, give it up)
Make way (put it on
Gonna hook it up, hook it up)
How's that (leave it up
Leave it up to me)
Yo, It's the kids (I can do it if I
Speed it up, speed it up)
What, what (set it off
Gonna live it up, live it up)
Make way (put it on
Gonna hook it up, hook it up)
And how's that (leave it up
Leave it up to me)
