Twilight Symphony

Stratovarius

I'm entering in to the woods, I left everything behind
I have to follow my heart, don't know what I'm searching for
Starlights guiding my way to old black oak where we meet
Now it's full moonOther side is calling me, yeah
Singing dancing this is no dream
Twilight symphony, oh
Twilight symphonyThe feast is going on rapture never seen before
The fury is taking us into a new level soon
Hearing voices everywhere
Telling me what to do, giving me answersOther side is calling me, yeah
Singing dancing this is no dream
Twilight symphony, oh
Twilight symphony
