

# Twilight Symphony

## Stratovarius

I'm entering in to the woods, I left everything behind  
I have to follow my heart, don't know what I'm searching for  
Starlights guiding my way to old black oak where we meet  
Now it's full moon Other side is calling me, yeah  
Singing dancing this is no dream  
Twilight symphony, oh  
Twilight symphony The feast is going on rapture never seen before  
The fury is taking us into a new level soon  
Hearing voices everywhere  
Telling me what to do, giving me answers Other side is calling me, yeah  
Singing dancing this is no dream  
Twilight symphony, oh  
Twilight symphony
