We Are Alive (Instrumental)

Terravita

[Verse 1][Jaws]Hi
How ya doing? What's your sign?
what's your name? What's your number?
Can I get you some wine?
Maybe dine on the patio/get soft on the radio
Quiet storm/RnB/ Johnny Gil lady flow
All you gotta do is tell me what you wanna do
I'll make time I'll make it happen
we'll do you
you make me higher than a sky waitress
woops I meant flight crew
you're sweet enough to give me diabetes/ that's type two
it really doesn't matter any problem we fight through
Mike Tyson up in it take out your earring I bite boo
oh you're a dancer? Stripper or Go Go?
Let me see you make it clap or drop it in slow mo
twerk it/ work it/ jerk it /hear her giggle make it worth it
turn around and let me see it miss monroe I'm undefeated
kicking game I never did it
I just talk/ and then I listen[Verse 2][Jaws]Girl I just want to give you some offspring
I'll buy a house in cabo you can practice your golf swing
I'ma be your panda bear ya baby I'm ling ling
king kong beat on my chest I keep it grimey like sing sing
I'm by the beach girl just toss on that string thing
forget the top though them tan lines are retarded
fuck it forget the bottoms too your bodies the hardest
when I see you in the mornings when my dick is the largest
Woops/ I'm begging your pardon
I know you hate the language I'ma say it regardless
each and every single piece and part of you's flawless
the way you look at me just makes me want to get lawless
Yup/ I never met another so special
I'ma fill the pool with Jello call your bestie let's wrestle
I'ma get you back to bed we gon get into it tussle
leave you unable to walk paralysis in your muscles[Chorus]I feel alive again
everytime that I look into your eyes again
I can feel my heart beating on time again
two hearts one life we are alive againI feel alive again
when you pull me back to bed between your thighs again

when your lips touch my lips I feel high again
two hearts one life we are alive againI feel alive again
everytime that I look into your eyes again
I can feel my heart beating on time again
two hearts one life we are alive againI feel alive again
when you pull me back to bed between your thighs again
when your lips touch my lips I feel high again
two hearts one life we are alive again
