

Spinnin' Around

Bill Nelson

You keep me spinnin' around
'Round, 'round, 'round, 'round, 'round, 'round, 'round I was thinkin' 'bout yesterday, I was thinkin' 'bout our
tomorrow
In a dizzy kinda sorta way, like vertigo
I've been trying not to figure out but it's driving me crazy
Well, you'd think I'd know by now A is last, Z is first
Living life in reverse
'Cause that's the way it works Spinnin' around I've got this funny feelin'
Turnin' my whole world upside down
I'll keep my heart, my eyes on you
'Cause you keep me spinnin' around, spinnin' around What we're doing doesn't have a sequel, don't wanna lose
your balance
Oh, you know you gotta keep your equilibrium
Goin' backwards to go forward, all these definite maybe's
It's like running around in circles Make it last, take it slow
Just forget what you know
'Cause that's the way it goes Spinnin' around I've got this funny feelin'
Turnin' my whole world upside down
I'll keep my heart, my eyes on you
'Cause you keep me spinnin' around, spinnin' around Every now and then I feel your peacefulness surround me
Then once again it all goes up and down
And over under 'round and around Go, go, go, jump, jump, go, go, go, J5
Spinnin around, oh, yeah, yeah
Upside down, oh, yeah, yeah, J5 in the house, hey
Jump, jump, jump, jump, jump, jump Turnin turnin upside down, down
Cause you're spinnin, spinnin, spinnin me around, 'round
Go, jump, go, jump, go, jump, go, jump
Spinnin around, that's the way it works Take it slow and not so fast, fast
Z is first and A is last, last
Up and down, all around, hey, hey
Turnin my whole world upside down Ooh, yeah, it's not the take, it's the give
Yes, that's the way, okay, the way it is Spinnin' around I've got this funny feelin'
Turnin' my whole world upside down
I'll keep my heart, my eyes on you
'Cause you keep me spinnin' around Spinnin' around I've got this funny feelin'
Turnin' my whole world upside down
I'll keep my heart, my eyes on you
'Cause you keep me spinnin' around
