

F Sharp

Nudeswirl

When you shot me you best destroy you dont even know what your doing
well there aint no one to understand how we feel

Its been to late you ve been destroyed you dont even know what your doing
well there aint no one to understand how we feel

they hear out here that its a ball you dont even know what your doing
well there aint no one to understand how we feel

this could be your choice you dont even know what your doing
well there aint no one to understand yeah there no one that understands
yeah

they hear out here that its a ball you dont even know what your doing
well there aint no one to understand how it feels
oh no there aint no one who understands how it feels
