

# Footprints In the Snow

**Roger Miller**

Some folks like the summertime when they can walk about  
Strolling through the meadow green, it's fun there's no doubt  
But give me the wintertime when snow falls all around

For I found her when the snow was on the ground Well I traced her footprints in the snow

I traced her footprints in the snow

I can't forget the day my darling lost her way

And I found her when the snow was on the ground Well I dropped in to see her, there was a big round moon

Her mother said she just stepped out be returnin' soon

I found her little footprints and I traced them through the snow

I found her when the snow was on the ground Well I traced her footprints through the snow

I traced her footprints through the snow

I can't forget the day my darling lost her way

And I found her when the snow was on the ground Now she's up in heaven, she's with an angel band

I know I gonna meet her in that promised land

But every time the snow falls, it brings back memories

For I found her when the snow was on the ground Well I traced her footprints through the snow

I traced her footprints through the snow

I can't forget the day my darling lost her way

And I found her when the snow was on the ground
