Medicine

Havelin

oh I hope you know, I hope you know
that I was barely hanging on
when I first saw you I was pitiful
and I was losing every night

I asked if you might stay a while, oh stay a while oh
you said maybe if your voice could make me smile, oh make me smile oh
and I told you give me one chance
I don't deserve it, give me this one chance

youâ€™re my medicine
youâ€™re my medicine

oh I hope you know, I hope you know
you pulled me up when I was down
you showed me love when I knew hopelessness
breathing slowly softer sounds

I asked if you might stay a while, oh stay a while oh
you said maybe if your voice could make smile smile, oh make me smile oh
and I told you give me one chance
I don't deserve it give me this one chance

youâ€™re my medicine
youâ€™re my medicine

and maybe I'll hold ya
maybe I'll look you in the eyes
maybe I'll give it all to see you smile
and maybe I'll hold ya
maybe I'll look you in the eyes
maybe I'll tell you, that I love you, tonight

youâ€™re my medicine
you're my medicine
you're my medicine
(oh i hope you know)
you're my medicine
(oh i hope you know)
you're my medicine

(oh i hope you know)
you're my medicine
