Stunt Pilots

Kill Hannah

It made a spark
Don't let the radars get you
Somehow send you down
And crash the car
But don't let the engine stop
They're dying to catch you
We ought to be all over
All in the news
We ought to be stunt pilots
Stunt pilots, stunt pilots

It made a spark
Don't let the radars get you
Somehow send you down
They look so hot
Don't let the engines quit
They're dying to catch you
We ought to be all over
All in the news
We ought to be stunt pilots
Stunt pilots, stunt pilots
