# Bon Scott

## Brigada Cobalto

Stood up spoke his mind
Never pointed finger
Cried out many times
A god's given bringer
Are you digging this
Going back in time
Music old or new
You always come to mind
Bon Scott that it is
Your words never missed
In after life I believe
You ain't no history
Hope you're feeling free
Perfect play on words
Something I could lean on
This song's in return

For helping me ride on
Bon Scott that it is
Your words never missed
In after life I believe
You ain't no history
Hope you like what you see
And feeling free - Yeah
You know the piace you got the key
Bon Scott that it is
Your words never missed
In after life I believe
You ain't no history
Hope you like what you see
And feeling free - Yeah
Bon Scott that it is
The boys keep rocking ot
Singing your songs out loud.
