

# Pleasure (Reckonwrong Remix)

## Formation

Go slow, we live in the haze of  
stains on the sheet like ink on the pages  
How low, well we'll never know  
The important papers, you push through the changes  
It's for show, our hearts and our chests  
We all try our best, even just for the children  
You know its all in your head,  
when your dreams fall apart as you try to build them  
We forget love  
With the same old lie  
With the same old lie  
We forget love  
With the same old lie  
With the same old lie  
Sometimes it looks like it feels,  
and it's no big deal, you don't find it funny  
It's fine, you walk down the line  
You need a straight face to keep all the money  
I bent over backwards to show you  
I mean it people, please believe me  
Won't you hear what I put in your ear  
'cause I say it again till it really hits home  
Really hits home  
We forget love  
With the same old lie  
With the same old lie  
We forget love  
With the same old lie  
With the same old lie  
We forget love  
We forget love
