

Let Me Be Your Car

Elton John

I may not seem your ideal
When you look into my eyes
I don't smoke, don't tell jokes
I'm not the custom made size But baby let me take you
Out on the highway for awhile
I'll show you where the man in me
Is when he doesn't hide Well he's cruisin' in the fast lane
Stuck behind a wheel
Jekyll and Hyde going on inside
When I'm your automobile Let me be your car for awhile child
I wanna shift me into gear, I'll be there
Fill me up with five star gasoline girl
Come on be your car, I'll take you anywhere Let me be your car, come on and drive me
I'm a speedy little boy down deep inside
I got bucket seats and two speed window cleaners, yeah
Just let me be your car, oh come on and ride I can't dance, I don't dig it
I can't see it at all
You say I'm just a specimen
And baby I can crawl Well, my physique just don't look
The way the physiques really should
But then again I've got an engine
Underneath my hood When I'm cutting up the road, yeah
With a sports car on my tail
Frankenstein's inside my mind
And the wind's inside my sails Oh, let me be your car for awhile child
Shift me into gear, I'll be there
Fill me up with five star gasoline girl, yeah
I'll be your car, I'll take you anywhere Let me be your car, come on and drive me
I'm a speedy little boy down deep inside
Oh, I got bucket seats and two speed window cleaners, yeah
I'll be your car, oh come on and ride, ah ride me now Well I'm cruisin' in the fast lane
Stuck behind a wheel
Well, Jekyll and Hyde going on inside
When I'm your automobile Let me be your car for awhile child
Shift me into gear, I'll be there
Fill me up with five star gasoline girl, yeah
Oh, be your car, take you anywhere
Oh, anywhere girl
