Poison Party (Famous)

For All Those Sleeping

[Verse 1]
Flashing lights, attention and lipstick,
They're not a trend, this is our new religion.
Where the truth always seems to give in,
To the lust, to be liked, and post filtered pictures.
Where's the passion? Where's the substance?
Where is the honesty that I once grew up with?
When it pays to to fake your shortcomings,
Then plastic is the new gold and what's real is worth nothing.[Pre-Chorus]
Need it, crave it, you'd love to taste it,
Let me hear you say it (famous, famous).
You really want it, you better take it,
Fake it til we make it and we all get famous![Chorus]
Welcome to the world gone crazy,
Stop by and drop a name.
Drink up, join the poison party.
Who cares if God will save us
As long we're all famous?Hey, hey!
As long as we're famous.
Hey, hey!
As long as we're famous.[Verse 2]
Every month I dread to bear witness,
To which awful trend becomes the hot new addiction.
Make it stop, I beg, will anyone listen?
But if you can't join 'em, hell, then you might as well beat them!
Fuck your idols and fuck their fame,
They don't mean a thing. they don't mean a thing![Pre-Chorus]
Need it, crave it, you'd love to taste it,
Let me hear you say it (famous, famous).
You really want it, you better take it,
Fake it til we make it and we all get famous![Chorus]
Welcome to the world gone crazy,
Stop by and drop a name.
Drink up, join the poison party.
Who cares if God will save us
As long we're all famous?[Hook]
Ladies and gentlemen,
We have arrived at the point of no return.
So sit back, relax, and enjoy the feel as we watch this world burn,

We're all gonna burn.Now raise your glasses with me,
We really got it this time.
Let's celebrate (famous).
So raise your glasses with me,
Here's to living the good life.
Let's celebrate (famous)[Bridge]
Welcome to the world gone crazy,
Stop by and drop a name.
Drink up, join the poison party,
Who cares what God will say just...[Chorus]
Welcome to the world gone crazy,
Stop by and drop a name.
Drink up, join the poison party.
Who cares if God will save us
As long we're all famous?Hey, hey!
As long as we're famous.
Hey, hey!
As long as we're famous.
