Ya body parts, ya body parts I want to be alone with you girl
Licking on your body, body
Gripping on me baby like you're gripping that Bacardi
I want to be alone with you girl
Girl cause you're a hottie, hottie
Digging on your body parts
Body parts, licking on your, body parts
Body parts, licking on your, body parts
Body parts I see you, standing over there in the corner
Looking like you want to get it girl, gripping that drink so tight
Tell me if I'm so right, plus you're looking dynamite
Think I want to be alone with you tonight
Or maybe girl for life, making you my wife
So hear me, let me share that drink with you
Let me get you in the mood
Get your attitude, lusting all in the nude
Now let me drive you to the beat baby
I'll take you to the city
To the country
Or take you to the moon (Mila J)
You want this
Can tell from the way that you licking your lips
You on it yeah yeah
You want it yeah yeah, yeah yeah
You like this
You're lost in the way that I'm moving my hips
They rolling yeah yeah
Slow motion baby baby, baby
Ain't gone be easy
You gotta work
But baby believe me
You gone love the perks

Ooooooh ooooohhh
I want to be alone with you[Chorus]
I want to be alone with you girl
If you want my body body
And you want to get naughty naughty
Then you got to come wit it
Play by the rules before you get it
If you want to feel it feel it
Then you gotta be the realest realest
When digging on my body parts
Let me touch ya
Body Parts oh Body Parts oh
Digging on ya body parts
When digging on my body parts
Body Parts oh Body Parts oh
Digging on ya body parts
When digging on my body parts So hey girl, tell me can I get with you
Do the things lovers do
Take you on a weekend cruise, buy you a new purse and shoes
Make you feel so brand new
Please let me get with you, I want you to be my boo
So hear me, I would give anything
Including dank, share your drank
Sound so good girl what you think(Mila J)
Baby I want you too
But you gotta make a move
I'm waiting, I'm anxious
I'm starting to get impatient
Your body's my station
Let's play operation
If I go out of bounds
I don't want to hear complaining
Do you hear me can you hear me
Focus boy want you to feel me
Oooh ooooo Ohh Ohhhhhh
I want to be alone with you[Chorus]
