When Will You Be Mine

Average White Band

It's not what you do, it's just the way that you do it
Makes me feel this way
It's not what I see, it's what I read in, to looks been giving me
Now make no mistakes, I'm not sure
(Make no mistakes)I can take anymore of this waiting game
If I had my way, I'd like to hear you say
(If I had my way)
You kinda feel the same way tooSo, when will you be mine? Do I have to wait forever?
When will you be mine? Do I have to wait forever, ever, ever?
When will you be mine? When will you be mine?
When will you be mine?It's not what you think, but when you take a drink
I feel this invitation
There's no need to worry, 'cause I'm in no hurry
I just want that sensation, I don't look for trouble
(Don't look for trouble)Sometimes that trouble come looking for me, yeah
There's one thing that I want to do
Is take you out of here with meSo, when will you be mine? Do I have to wait forever?
When will you be mine? Do I have to wait forever?
When will you be mine? When will you be mine?
When will you be mine? Do I have to wait forever?When will you be mine? Do I have to wait forever?
When will you be mine? What's the problem I've got to know?
When will you be mine? Please don't keep me in suspense this way
When will you be mine? This waiting is killing me
When will you be mine? I can't stand your drinking all night
