

She Loves Me, She Don't Love You

Gary Allan

Well, I can see youre dancin' every dance with her
And it seems to me youre dancin' much too close to her
When youre sittin' at our table, youre sittin' next to her
But my heart knows, that its true, she loves me, she dont love you Well, let me tell you, friend, Im wise to your
lies
Even tellin' me that Im the guy for her
When every little thing that you do and say
Is giving you away, youre in love with her Well, just one more dance with her and friend, youre gonna see
(She loves me)
What its like to hit the floor, do a little dance with me
So heres your coat and heres your hat, I think youd better leave
Cause she just told me its true, she loves me, she dont love you Well, let me tell you friend, Im wise to your lies
Even tellin' me that Im the guy for her
When every little thing that you do and say
Is giving you away, youre in love with her Well, just one more dance with her and friend, youre gonna see
(She loves me)
What its like to hit the floor and do a little dance with me
So heres your coat and heres your hat, I think youd better leave
Cause she just told me its true, she loves me, she dont love you Mmm hmm hmm hmm
(She loves me)
Mmm hmm hmm hmm
(Don't love you) So heres your coat, heres your hat, I'm thinkin' youd better leave
Cause she just told me its true, she loves me, she dont love you
