First impression

Raddock

Rock 'n' Roll starHe turns on the animal it's that time of day
Here comes little Johnny from the back streets of UK
He's got the answer it doesn't go away
Who's gonna treat you right yeaWho's gonna change the world tonight, tonight
The lasting first impression is what you're lookin' for
I said oh is that your first impression
And is that good enough for youDon't want illusions a power glory ride
Doesn't run with the neighborhood shadows
On a death trip body slide
He won't give up and he won't give in
And he won't let up until he gets inside your pretty skinI said oh
(Oh)
The lasting first impression
Is what your looking for
Say oh
(Oh)
Is that your first impression
And is that good enough for youHe turns on the animal it's that time of day
To make a little honey in the backstreet of UK
And he loves the noise and he loves to play
Just leave him here right now boys
'Cause tomorrow's on the wayI said oh
(Oh)
The lasting first impression
Is what you're looking for
Say oh
(Oh)
Is that your first impression
And is that good enough for youGood enough for you
(Good enough for you)
Enough for you
(Enough for you)
And is that good enough for youGood enough for you
(Good enough for you)
Enough for you
(Enough for you)
And is that good enough for youPossibility see the possibility to seize
The opportunity to seize the possibility
To turn on the animalSay oh the lasting first impression

Is what you're looking for
Say oh
(Oh)
Is that your first impression
And is that good enough for youOh the lasting first impression
Is what you're looking for
Say oh
(Oh)
Is that your first impression
And is that good enough for youGood enough for you
(Good enough for you)
Enough for you
(Enough for you)
And is that good enough for youGood enough for you
(Good enough for you)
Enough for you
(Enough for you)
And is that good enough for you
