

Lay My Body Down

[Kenny Rogers](#)

Woman you're the closest thing
I know to peace on earth
Your warm through what feels cold in me
And healing to what hurts Woman can you tell me why
I'm driven as I am
Is there something that I have
That makes you give a damn Be my comfort when the world
Waves me to the ground
Take me when I've lost my way
Let me know I'm found Be a blanket to my soul
Wrap it all around
Be a feather bed to me
And lay my body down Touch me with your finger tips
Give my burdens rest
Tell me not to worry so
I know that you know best Lady take my candle stance
And hold them in your arm
Lie against me in the dark
And show me I've come home Be my comfort when the world
Waves me to the ground
Show me when I've lost my way
Let me know I'm found Be a blanket to my soul
Wrap it all around
Be a feather bed to me
And lay my body down
Be a feather bed to me
And lay my body down
